PROFILE

Software Development Engineer with 3 years of full-time experience and 10 months of internship experience building scalable Java/Spring Boot microservices, REST APIs, event-driven workflows, and high-volume customer platforms at Lenskart. Experienced with Kafka, MongoDB, Redis, MySQL, AWS S3, Docker, Kubernetes, caching, asynchronous processing, production ownership, and distributed system design.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Microservices, REST APIs, API Design, Maven, Gradle

Data & Messaging: Apache Kafka, MongoDB, MySQL, Redis, Algolia

Cloud & DevOps: AWS S3, Docker, Kubernetes

Core Concepts: System Design, Distributed Systems, Event-Driven Architecture, Caching, Async Processing

PROFESSIONAL EXPERIENCE

Lenskart

Software Development Engineer

Gurugram, Haryana

Aug 2023 - Present

- **AI-Powered Prescription Scanning Platform:** Built and owned the end-to-end prescription scan flow across upload, Kafka-based asynchronous processing, AI prescription data extraction, eye-power and image-quality validation, MongoDB state management, polling APIs, timeout/failure handling, and Consul-driven customer messages.
- **Rating & Review System:** Owned backend development, deployment, and maintenance of the review ecosystem with Aerobar ratings and enhanced past orders; built Kafka workflows and an AWS S3 file-upload service that increased reviews from 25 to 5,000/day, with 44% image reviews.
- **Instagram Integration:** Built a scalable media ingestion platform using Instagram Graph APIs, Kafka, schedulers, and AWS S3 to process, enrich, and serve media content in near real time; integrated Gemini AI to generate content titles and subtitles.
- **Package Recommendation System:** Developed personalized package recommendations with detailed specifications and video content, improving package-screen-to-cart conversion by 5% and strengthening the customer purchase journey.
- **Reorder Notification System:** Built WhatsApp-based reorder reminders using contact-lens disposability cycles and recommendation logic to improve repeat-purchase engagement, inventory flow, and operational accuracy.
- **Localization Platform:** Implemented Algolia search localization and app localization across Thai, Hindi, Arabic, and Vietnamese, enabling multilingual search and driving a 70% increase in user engagement.

Lenskart

Software Development Engineer Intern

Remote

Oct 2022 - Jul 2023

- **PLP Enhancements:** Built Super Cards for direct product-to-cart navigation and Celeb PLP, improving customer discovery and increasing PLP-to-PDP conversions by 2.1%.
- **Sizing Utility:** Designed a reusable size-conversion utility, handled edge cases, and streamlined size management across services.

EDUCATION

Birla Institute of Applied Sciences

Bachelor of Technology, Computer Science Engineering

Bhimtal, Uttarakhand

Aug 2019 - Aug 2023
